

How to give a generic health testimony for EnjoyHealthAgain.com

- Social proof on our websites and why this is such a big deal – especially for the snapshot
- TEAM = Together Everyone Accomplishes More

Things to do BEFORE you make your video:

- We will **NOT** mention names of specific diseases or illnesses. We do not diagnose, treat, or cure anything. We help people give their bodies healthy products to support overall health.
- Talk with a friend or family to see if they can hold your phone and shoot the video for you
- Shoot video with your phone horizontal (wide view instead of tall)
- Pay attention to good lighting so we can see your face (facing your light source)
- Make sure your clothing and background are clean, appropriate, and modest (no bathing suits)
- Write down a few notes about the things you want to share about your story AND practice a time or 2 (while you are recording)
- Potential things to include in your story - (things you were struggling with before like energy, feeling bad, reaching and maintaining healthy weight, not sleeping well, finding good nutrition for myself and my kids, fast – convenient – tasty nutrition, etc.)
- Don't show license plates or street/addresses in background and respect your neighbor's privacy
- You can see a great example of a generic testimony at: <https://player.vimeo.com/video/323916809>

Things to talk about in your video (please make the video no more than 1 to 1 ½ minutes long):

- Please do **NOT** say Revii or the product names in this video – this will be used to create curiosity
- Say your first name, state, and occupation (if you're comfortable including that)
- Say what was happening in your life that had you open to looking at an option to (*insert the health benefit you were looking*). This is something like, "In (year you started using the products), I was (insert the reason you were open to looking at the health products)." **Please don't say Revii or the pack name.**
- Say how you were introduced to the option – tell the story (phone call from a friend, advertisement, something you saw on social media, etc.)
- Explain the difference that this option has made for you and/or your family (sleeping better, feeling better, having more energy, maintaining a healthy weight, less discomfort, you know you're giving your body more of what it needs, looking and feeling younger, etc.)
 - If you have a number shifting score from the snapshot/Feel Good Quiz please share your starting number and current number
- Why you plan to continue and recommend that other people learn more about this option

Things to do after you complete the video:

- Send video to us by using the free WeTransfer app on your phone and email the video link to tom@partnerwithrevii.com

- We created a video that shows how to use the WeTransfer app, which you can find on the page you're watching this video on or at rlgtraining.com

- If you have questions, feel free to use the "chat" button at <http://rlgtraining.com> or email tom@partnerwithrevii.com

Thank you for being part of the team and for sending us your testimony
