

How to give the Xp3 video testimonial

- Understanding the plan for the AmazingFuelSecret.Net website and why this is such a big deal
- TEAM = Together Everyone Accomplishes More

Things to do BEFORE you make your video:

- Talk with a friend or family to see if they can hold your phone and shoot the video for you
- Shoot video with your phone horizontal (wide view instead of tall)
- Pay attention to good lighting so we can see your face (facing your light source)
- Make sure your clothing and background are appropriate and modest (no bathing suits)
- Write down a few notes about the things you want to share about your Xp3 story AND practice a time or 2 (while you are recording)
- Potential things to include in your story - (MPG, Power, Performance, starting, smooth running, protecting their engine or equipment)
- Goal is to make the video 2 minutes or less
- Plan to make the video by car (don't show license plate or street/address in background)
- You can see some great examples of testimonials at AmazingFuelSecret.Net

Things to talk about in your video:

- Say your first name, state, and occupation (if you're comfortable including that)
- Say the Year, make, and model of your vehicle or other equipment you are talking about (snowblowers, lawnmowers, 4 wheelers, boats, motorcycles, etc.)
- Say how you were introduced to Xp3 and why you were interested in trying it
(better MPG, more Power, better Performance, improved starting, smooth running, water and/or ethanol or biodiesel issues, protecting your engine or equipment)
- Explain your before-and-after story (MPG, Power, Performance, starting, smooth running, protecting their engine or equipment)
- Say how long you've been using Xp3 (if more than 1 year) and why you'd recommend other people try it too
- You can also mention if you use Xp3 in any other vehicles and equipment
- Please remember to aim to keep the video at 2 minutes or less

Things to do after you complete the video:

- Send video to us by using the free WeTransfer app on your phone and email the video link to tom@partnerwithrevii.com

- We created a video that shows how to use the WeTransfer app, which you can find on the page you're watching this video on or at rlgtraining.com

- If you have questions, feel free to use the "chat" button at <http://rlgtraining.com> or email tom@partnerwithrevii.com

Thank you for being part of the team and for sending us your testimony
